## 2010 CPT/HCPCS Code Update

The following procedure codes have been added or deleted from the listed Local Coverage Determination (LCD) policies for 2010. The new codes are effective for services performed on or after 01/01/2010; the deleted are effective until 12/31/2009 and will not include a 90-day grace period.

**\*Editor's Note:** J3490, J9999, and A4641 are valid codes to identify not otherwise classified (NOC) drugs and radiopharmaceuticals that have not been assigned a true CPT/HCPCS code. They are listed in the table below to indicate that the NOC code is no longer valid to use for the drugs and radiopharmaceutical listed below which now have true HCPCS codes.
