

Basic functions of Mediasite.

The image shows a screenshot of the Mediasite interface. At the top left, the word "Medi" is visible in a large font. Below it, there is a navigation bar with a "Polls" icon and an "Ask" button. A callout box points to the "Ask" button with the text: "Click here to submit a question to WPS Medicare". To the right of the "Ask" button, there are navigation icons (back and forward arrows) and a callout box: "Click here to navigate the slides". Further right, there is a question mark icon and a callout box: "Presentation box - displays slides". The main content area is a large blue rectangle. Below it, there is a control bar with several icons: a play/pause button, a speed slider (with "fast" and "slow" labels), a volume control icon, a mute button, and a full screen control icon. Callout boxes point to these controls: "Presenters Box (Can be the only box displayed)" points to the main content area; "Slide the bar to move forward and backwards" points to the speed slider; "Full Screen Control" points to the full screen icon; "Speed of the presentation slider" points to the speed slider; "Volume Control" points to the volume icon; "Mute Button" points to the mute icon; and "Play/Pause Button" points to the play/pause icon. The text "Initializing" and "00:00/00:00" is visible at the bottom left of the main content area.
