

Modifier 51 Fact Sheet

Medicare does not recommend reporting Modifier 51 on your claim; the processing system has hard-coded logic to append the modifier to the correct procedure code.

Definition:

- Multiple surgeries performed on the same day, during the same surgical session.
- Diagnostic Imaging Services Subject to the Multiple Procedure Payment Reduction that are provided on the same day, during the same session by the same provider

Appropriate System Usage:

- When both diagnostic procedures have an indicator of "4" in the MPFSDB "Mult Surg" column and both diagnostic procedures have the same "Diagnostic Imaging Family Indicator" in the MPFSDB
- When the same physician performs more than one surgical service at the same session.
- When the MPFSDB indicates a "01-11" in the "Diagnostic Imaging Family Indicator" column.
- When both surgical procedure codes have an indicator of "2" in the MPFSDB "Mult Surg" column.
- Append modifier 51 to the surgical procedure code with the lower physician fee schedule amount.
- Append modifier 51 to the diagnostic imaging procedure with the lower technical component fee schedule amount.

Inappropriate System Usage:

- Do not use with designated add-on-codes.
- Do not report on all lines of service.

Additional Information:

- Medicare pays for multiple surgeries by ranking from the highest physician fee schedule amount to the lowest physician fee schedule amount.
 - 100% of the highest physician fee schedule amount
 - 50% of the physician fee schedule amount for each of the other codes

- Medicare will forward the claim information showing Modifier 51 to the secondary insurance.
- Multiple surgery pricing logic also applies to assistant at surgery services.
- Multiple surgery pricing logic applies to bilateral services (modifier 50) performed on the same day with other procedures.
