

Modifier 66 Fact Sheet

Definition:

- If a team of surgeons (more than two surgeons of different specialties) is required to perform a specific procedure, each surgeon bills for the procedure with a modifier “-66.”

Appropriate Use:

- The MPFSDB identifies certain services submitted with a “-66” modifier, which must be sufficiently documented to establish that a team was medically necessary. All claims for team surgeons must contain sufficient information to allow pricing “by report.” The following indicators identify services for which team surgeons may be paid:

0 = Team surgeons not permitted for this procedure.

1 = Team surgeons may be paid if supporting documentation is supplied to establish medical necessity of a team. Paid by report.

2 = Team surgeons may be paid. Paid by report.

Facts

- Global surgery rules apply to each of the physicians participating in a team surgery.
- Reimbursement is determined “By Report.”
