***The rural Ambulance Fee Schedule rate for ground mileage (A0425) is 50% higher for the first 17 loaded miles (rural rate X 1.5 = rural rate). Rural ground miles 17-50 are equal to the rural mileage rate. For all ground miles (both rural and urban) over 50, the ambulance fee schedule rate for A0425 is 25% higher than the appropriate rate (urban rate x 1.25 or rural rate x 1.25).*

Effective for dates of service 7/1/04 - 12/31/09, the base rate of the payment under the Ambulance Fee Schedule for ground ambulance transports furnished in certain rural areas is increased by 22.6% as determined by the Centers for Medicare & Medicaid Services (CMS). This increase applies where the point of pick-up (POP) is in a rural county (or Goldsmith Area) that is comprised by the lowest quartile by population of all such rural areas arrayed by population density. The low density (qualified) areas appear with a 'B' Rural indicator on the CMS Zip Code file. (The codes that are eligible for this bonus are indicated in the above chart with a '#' indicator.)

The ground ambulance base rate fees above reflect the cessation of the temporary 1%-urban and 2%-rural payment increases that were enacted under the MMA.
